Our Services

WHY TRADE STOCKS:

Stocks let you own a piece of a company's future. They're available for a wide variety of industries, so you can tap into your knowledge of specific businesses, or help you to diversify your portfolio.

- Get market data and easy-to-read charts.
- Use our stock screeners to find companies that fit into your portfolio.
- Trade quickly and easily with our stock ticker page.
- Stop and conditional orders may help protect your portfolio.
- The price-to-earning (P/E) ratio can help you identify value stocks.
- Compare earnings-per-share (EPS) between similar companies.

Mutual Funds

Our Services

Mutual funds are steadily making an entry into the household savings with an increased awareness about financial planning and higher efforts towards promoting mutual funds as an investment product. Further, the availability of a wide range of mutual fund schemes makes it easier for you to choose the mutual fund scheme to suit your financial goals. Moreover, with everything becoming more expensive, investment in traditional instruments might not live up to your expectations. This is where investments in mutual funds can be beneficial. Whatever your goals might be, there are mutual funds to help meet them. Bitsofin offers a broad range of investment strategies to fit within your asset allocation; including our proprietary quantitative factor strategies designed to efficiently capture excess returns and managing risk controls.

Real Estate

Our Services

Bitsofin and its affiliates have owned, developed and managed multifamily, offices, industrial, retail and hotel properties throughout the southeastern and southwestern United States. bitsofin.net has a history of identifying real estate investment opportunities through its network of long-term, strategic relationships. Our team draws on deep industry expertise to develop real estate investment businesses underpinned by compelling secular themes and drives operational improvements to accelerate income growth. In more than 400 assets across multiple sectors. The senior team averages more than two decades of real estate experience with expertise in acquisitions, Asset management, portfolio management, financing, investment sales, investment banking, financial reporting, legal, construction management and development. Real estate trading has a shorter time period during which capital and effort are tied up in a property. Depending on market conditions, there can be significant returns even on this shorter time frame.

Our Services

Our team of agricultural specialists understand that different types of farming often have different needs. Our in-depth knowledge of the sector can help you to overcome the daily challenge of improving efficiency to maximise potential growth. As well as the vast range of new machinery and technology available, investment in biomass to create reusable energy can reduce financial costs and, in some instances, even provide a source of additional income. Whether you need new equipment to improve productivity or are looking to restructure your finances to improve cash flow, our range of financial products, including hire purchase, lease and equity release, can be tailored to meet your needs within appropriate, manageable time scales.

Our Services

Our mission is to be an infrastructure partner of choice by making and managing investments which have historically shown to deliver consistently attractive results to clients through the passion of our people, depth of our experience and strength of our global relationships. We specialise by sector and seek out the right deals. We have a solid track record across market cycles using a disciplined investment process, focused on delivering long-term value and capital preservation within sustainable robust capital structures. We have one objective, to deliver predictable outcomes for our clients.

Why infrastructure?

Infrastructure assets provide essential services that support economic growth, generate productivity and underpin the operation of society, such as airports, schools, energy, transport and communications.

Our Services

It also has characteristics that can benefit investors, such as steady returns through market cycles with lower volatility, stable long-term yields and diversification. Stable, experienced sector centric team over 55 experienced infrastructure professionals located in USA, Canada and UK. Our stable team is led by founding partners. Active-Core' strategy We identify relative value across core assets. Our deep sector focus drives value. Active asset management Value driven from active management, stakeholder engagement and selecting appropriate internal management teams. We create value through leadership positions of control or strong influence. Focused origination drives quality pipeline. Our targeted approach aims to deliver more than 210 opportunities each year. We pursue opportunities where there is the ability to differentiate.

Commodities

Our Services

With a long-term track records in bitsofin.net since 2015, the portfolio management team has been providing efficient and cost-effective exposure to a variety of different commodity benchmarks. The Team seeks to add value in commodity markets through identifying market inefficiencies and price dislocations. The philosophy includes a conservative approach to managing the underlying cash-collateral portfolio in order to preserve the diversification and inflation-protection qualities of the asset class. Few examples of commodities are; Gold, Copper, Silver, and Platinum. The United state Metal Exchange announced it would launch futures contracts for metals used in batteries. The exchange expect there, will be a large market for such metals as the demand grows for electric vehicles. Through various fund structures and separate accounts, the team offers a broad range of managed commodities solutions enhanced index, active management, and absolute return strategies in order to meet each investor's unique appetite and investment goals.
